NEW UPCOMING FEATURES (August 2007)

Teacher/Student Collaboration System	
Bloard (Blog + Bulletin Board) Center	
Full features list will be announced soon	The Bloard is going to be a tool that teachers can use to collaborate with their students and use as a teaching tool. It will be an extremely easy to use tool that combines the functionality of a Blog and a Bulletin Board.
Podcast/Videocast Center	
Full features list will be announced soon	Podcasts are becoming more and more mainstream teaching tools, so we are in the process of developing podcast collaboration tools that teachers can use with their students. It will allow uploading and posting of mp3 formatted materials to use as a teaching aid as well as have a comments section in the same style as the Bloards.
Videocast Center	
Full features list will be announced soon	Videocasts are podcasts that are in video formats. This exiting new feature will allow for uploading and posting of all major video formatted materials to use as a teaching aid as well as have a comments section in the same style as the Bloards.
